SAGE takes FOOD ALLERGIES very seriously!

To help find safe items in the dining hall, click on the **ALLERGENS/RESTRICTIONS** tab in the online menu. Then, choose the allergen(s) that you want to avoid and see how the menu adjusts. If you want to know more about a dish, click directly on the menu item to get the full list of ingredients. Using this online menu should always be accompanied by a discussion with your food service director.

To view your online menu, click the link below.
